Canada Greatly Surprised.

A dispatch to the Toronto Globe, government organ, from Ottawa, Ont., says: Surprise is expressed here at the complaint by a legal representative of the United States that vexatious delays have occurred in connection with the extradition of Messrs. Gaynor and Hays, and the reported intention of the Washington authorities to complain to the imperial government is scarcely credited. The case is in the courts and the delay is due to the fact that the extradition of the two men will be handled over in due course.

General Suspension of a Defense Fund.

Wilkesbarre special: For the first time since the mine disaster, the defense fund has been suspended. President Mitchell consented to say something for publication about the gathering. He said it was utterly impossible to furnish the names of the convention. From his remarks it is almost certain the convention will do one of two things, either to suspend the fund or to continue it as a defense fund for the anthracite strikers.

The Flood in Kansas.

Manhattan (Kan.) special: The flood situation in the valleys of the Blue and Kaw rivers is becoming more serious, and many families have been forced to leave their homes for higher ground. The river is a raging torrent, twenty-one feet deep and still rising. It is running over the Union Pacific tracks several feet deep, for a distance of two miles, taking a short cut to the Kaw river, just east of here.

Two Boys Drowned.

Two boys, Arthur Brown, aged 16, and Adolph Bueler, aged 18, residents of Detroit, were drowned in Cass lake, a small body of water about twenty-five miles from Detroit. The boys were out on a boat when the accident occurred. The boat began leaking and finally tipped over before they could reach shore. The girl was saved, but was taken to hospital before the rescuers could get to them.

Balfour, first lord of the treasury and government leader in the house of commons, has been appointed to succeed him. The marquis of Salisbury tendered his resignation at an audience he had with King Edward last Friday. Mr. Balfour immediately visited the king and accepted the premiership.

Cholera at Manila.

Manila special: The outbreak of cholera has slightly decreased, possibly on account of rain. The totals since the outbreak are: Manila 2,181 cases and 1,718 deaths; provinces 12,476 cases and 1,357 deaths. The court-martial of Captain James A. Ryan, of the Fifteenth cavalry, on the charge of unnecessary severity to natives has been concluded. It is believed that he will be acquitted.

Finlanders to Settle in Oklahoma.

Information has been filed at the office of the territorial secretary at Guthrie, Okla., by a representative of the Missouri, Kansas and Texas Railroad regarding the colonization in Oklahoma of all or a portion of the 4,000 Finlanders who are coming to America to live. The information states that 60 per cent. of them will be able to purchase their own farms.

Finde America Cases Delay.

Rome special: It is understood that the question of the withdrawal of the fleet from the Philippine Islands could be settled immediately if Washington would settle the one account of the nation that they will be withdrawn gradually. It is believed here that only President Roosevelt can decide whether such a promise shall be accepted.

In the presence of 5,000 spectators witnessing an open-air performance of the "Last Days of Pompeii" in Louisville, Ky., James Duff, known as the "human bomb," received a fatal injury which will probably result in his death.

No One Criminally Responsible.

The grand jury decided in Chicago that no one should be held criminally responsible for the fire which destroyed the sanitarium of the St. Luke Society on June 9, with the loss of twelve lives.
